

UNITED REPUBLIC OF TANZANIA

MINISTRY OF FINANCE

NATIONAL INSURANCE CORPORATION (NIC)

INTERNAL MEMO

TO: Managing Director

FROM: Ag. Head ICT

DATE: 01st August, 2025

RE: **TRAINING FOR BUILDING AGENTIC ARTIFICIAL INTELLIGENT (AI) SYSTEMS**

Kindly refer to the heading above.

2. The Corporation is committed to enhancing operational efficiency by equipping its employees with critical skills. To support this goal, it has organized a series of training programs aimed at strengthening staff knowledge and practical expertise, particularly in areas such as Artificial Intelligence within the insurance industry.

3. The training will focus on key areas such as an overview of open source models for Agentic AI, language models for Agentic AI, and techniques for training and fine tuning these models. It is designed to equip participants with the skills needed to effectively manage and implement AI model solutions within the insurance industry. Additionally, the program will enhance participants' ability to understand and implement Agentic AI systems, further strengthening their expertise in building AI solutions using open source models.

4. To support this objective, Koenig Solutions has scheduled a six (6) day training program on developing AI systems using open source models. The training will be held in Dubai, United Arab Emirates.

5. To facilitate this initiative, we seek approval for a total expenditure of **USD 24,760.00** to enable four (4) ICT staff members to attend the training. This amount covers both per diem

and training fees. Additionally, we request an outfit allowance of **TZS 3,200,000**. These investments are essential to ensure that the participants gain critical skills and knowledge in AI systems. Attached are the course outlines and a detailed budget breakdown.

I submit for your review, guidance and approval.

.....
Hilali Mdee

Ag. Head ICT

Table 1: Training Budget for Four (4) ICT Staffs

TRAINING COST						
Aug-25						
1.0	ALLOWANCE IN USD	Qty	Days	Rate	25%	Amount
